PROFESSIONAL SUMMARY

Passionate and results-driven coder with overall three years of hands-on experience, seeking a challenging role in an innovative organization. Excels in problem-solving and embraces new technologies, dedicated to driving excellence in software development.

SKILLS

Languages: JavaScript, Java ,HTML/CSS
Frameworks: Spring Boot, React, Bootstrap, Azure
Developer Tools: Git, VS Code, Visual Studio, IntelliJ, SpringToolSuite
Database Technologies : Oracle, MongoDB, Postgresql

PROFESSIONAL EXPERIENCE

Full Stack Web Developer   February 2023 - Current
IBM - Bengaluru, India

- Developed static web pages end-to-end using **Frontend Technologies** HTML, CSS, Javascript and thyme leaf, along with **backend development** using **Java Spring Boot**.
- Managed the full development lifecycle, including **backend logic**, **frontend design** and also deployed web applications on the **Azure** cloud platform, ensuring smooth integration and accessibility.
- Optimized database queries for improved query execution times, ultimately enhancing application responsiveness.
- Created and maintained web pages using **HTML, CSS, and JavaScript**, ensuring they are responsive and align with client's requirements and with modern web standards.
- Increased website performance by optimizing front-end and back-end code for faster loading times.
- Debugged JavaScript and React code to fix bugs and optimize performance, improving load times and overall application efficiency.
- Responsible for doing Vera code, SCA, SAST and DAST scan and fixing on the vulnerability.

SAP Basis Consultant
IBM - Bengaluru, India   June 2021 - February 2023

- System Monitoring and Maintenance: Regularly monitored SAP systems to ensure optimal performance, executed routine maintenance tasks, and applied basic troubleshooting techniques to address system alerts and issues.
- User and Security Administration: Managed user accounts and roles, implemented authorizations, and ensured compliance with internal security policies to maintain system integrity and security.
- Support and Troubleshooting: Provided first-level technical support for SAP system issues, collaborating with senior consultants to resolve more complex problems and ensuring minimal disruption to business processes.
- Patch Management: Assisted in the application of SAP patches and updates to enhance system functionality and security, under the supervision of more experienced team members.
- Documentation and Reporting: Maintained detailed documentation for system configurations.

Front End Developer Intern
QuantaQuad IT Services - Bengaluru, India   January 2021 - May 2021

- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Coded using HTML, CSS and JavaScript to develop features for both mobile and desktop platforms and also produced websites compatible with multiple browsers.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Enhanced user experience by developing responsive and interactive web applications.
- Implemented accessibility best practices to create user-friendly websites for all users, including those with disabilities.

PROJECTS

GCP-Phase3-Cloud Migration:
- **Technology Stack Conversion**: Migrating legacy .asp code to Java Spring Boot, ensuring modernization and enhanced performance.
- **UI Development**: Building user interfaces using HTML, CSS, JavaScript, and Thyme leaf, focusing on responsiveness and user experience.
- **Backend Development**: Developing backend functionalities using Java Spring Boot, integrating business logic seamlessly with front-end components.
- **Database Integration**: Utilizing JDBC Template for database operations, managing data interactions within a PostgreSQL database environment.
- **Project Management**: Managing dependencies and project builds with Maven, ensuring efficient project lifecycle management and build consistency.
- **Deployment Automation**: Deployed code from Git to Azure, utilizing pipelines for automated deployment, ensuring smooth and efficient code delivery to the cloud environment.

Directv AB Testing:
- Web Component Development: Designed and implemented responsive web components and pages using HTML, CSS, JavaScript, and React based on client specifications for DirecTV.
- AB Testing Execution: Managed audience segmentation and test setups using Evolv Manager, executing AB tests to gauge the effectiveness of different web components in achieving enhanced user engagement.
- Performance Measurement: Analyzed customer engagement data to assess the success of developed components and webpages, ensuring alignment with client goals and continuous improvement.
- Accessibility Compliance: Ensured web content met accessibility standards, enhancing user experience and broadening accessibility for all users, including those with disabilities.
- Continuous Learning and Adaptation: Adapted strategies and techniques in response to AB testing outcomes and accessibility testing feedback, promoting an iterative approach to web development and optimization.

SAP BASIS system administration and security for Maersk:
- System Maintenance and Monitoring: Perform routine system checks and monitoring to ensure optimal performance of SAP environments. Use SAP tools to monitor system performance and resolve basic performance issues.
- User Administration: Manage SAP user accounts, roles, and authorizations according to business needs. Ensure security compliance for user access and address access-related issues.
- System Installations and Configurations: Assist in the installation and configuration of SAP systems under the guidance of more experienced consultants. Participate in setting up test environments for projects and upgrades.
- Backup and Disaster Recovery: Execute and monitor regular backups of SAP systems. Assist in developing and testing disaster recovery plans.
- Patch Management and Upgrades: Apply SAP patches and updates under supervision. Help prepare and execute SAP upgrades.
- Troubleshooting and Support: Provide technical support for SAP system issues. Troubleshoot and resolve straightforward technical problems with guidance from senior colleagues.
- Documentation: Maintain accurate documentation of system configurations, changes, and procedures. Document issue resolutions and maintain knowledge bases.

EDUCATION

Don Bosco Institute Of Technology Bengaluru, India   June 2016 - August 2020
Bachelor of Engineering Information Science

CERTIFICATIONS

Azure fundamentals AZ-900 (2022)
Microsoft Azure Developer Associate AZ-204(2023)
Software testing by Udemy (2022)
Full Stack Development in Future Skills (2023)
CSS Bootcamp by Codekaro (2023)
Javascript Bootcamp by Codekaro (2023)
